APPLICATION AND SELECTION

Application/Solicitation

FBR anticipates that that, with successful distribution of the existing bike racks, future commissions may be possible. The current application/solicitation period is Fall of 2023, which will run from October through December. An application form is available as a separate fillable PDF.

Certain public or non-profit organizations may be solicited to determine if they are interested in a bike rack.

Location/Applicant Selection

Applications will be reviewed and accepted based on demonstrated need in the application, the applicant's address, the proposed location of the bike rack within the applicant's address, and capacity for applicant to install the bike rack (including transporting from storage location). As stated above, part of the goal of the program is to equitably distribute bike racks throughout the FBR/RVARC service area.

Cost

FBR/RVARC are making the bike racks free for public institutions and community-based organizations. For private entities, the cost of the bike rack will be negotiated based on the proposed location, planned use, and demonstrated need. Bike rack installation costs, and logistics are the responsibility of receiving organizations, whether public, non-profit, or private.

Contact

To receive more information about this program please contact Andrea Garland, Director of the RIDE Solutions Program at Roanoke Valley-Alleghany Regional Commission (agarland@rvarc.org)
